# INTRODUCTION

This document lists the New Zealand Champions in each of the events that were contested in each year of the championships. The lists are based on the “Summer” events (i.e. track & field, combined events, and road walks held in conjunction with the track & field championships) and the “Winter” events (i.e. Cross-country, Road, Road Relay, Mountain Running, Ultra-distance, and Long Distance Road Walks). There are also “Discontinued Events” i.e., events that have, at one time or another, been included in the Championship programme, that are no longer held or contested.

The summer events are listed by season e.g. 2006 –2007, rather than the specific year in which the championship was held. In some “years” there were two National Track and Field Championships, e.g., in March 1989 there was the 1988-89 season Championships, whilst the 1989–90 season Championships were held in November 1989. The winter events are listed as in the calendar year in which they were contested.

Care should be taken when reading the “Junior Men”, “Junior Women”, “Youth Boys”, and “Youth Girls” lists as the definition of the actual age group used has changed variously over time and the implement weights used in the throwing events and the hurdle heights and distances in hurdle events associated with these age groups has similarly changed to reflect the changed age groups.

The championship best performance in the “modern era” i.e., metric distances, metric measurements and electronic times for each event are displayed in **bold** text. However, for the reason outlined above, championship best performances in the “Junior Men”, “Junior Women”, “Youth Boys”, and “Youth Girls” lists are not shown.

The affiliation of the athlete is shown exactly as it was displayed in the results. A change from Centre representation to either club or Centre representation may result in an athlete having different representation from year to year. Further, the names of clubs have changed over the period of the lists. For example, “Bays Cougars”, “North Harbour Bays”, and “North Shore Bays” are names variously describing the same club! There have also been some changes and variations of Centre name over the years.

There are some discrepancies with some of the walking events. These will be corrected when further information comes to light.

These lists were initially compiled by (the late) John Clark. They were added to by Murray Taylor (2004 - 2007) and from 2008 by Stephen Hollings. Additional input and corrections have been made by Murray McKinnon, Simon Holroyd, Don Dalgliesh and David Sim.

Should you notice any errors, or have information that will complete these lists, please send them to Stephen Hollings: [stats@athletics.org.nz](mailto:stats@athletics.org.nz)
